PROJECTS / OPEN-SOURCE

MOVIE/TV SHOW RECOMMENDATIONS SYSTEM | [LINK](#) Javascripts, React.js, MongoDB, Html, Css

"Hello, my name is Jatin kumar, and Im excited to share my project on developing a movie/TV show recommendation system. The goal of this project was to create a system that recommends movies or TV shows based on user preferences, ultimately enhancing user engagement by providing personalized content suggestions.

my contribution in this projects is:-

1. Data Scientist.
2. Software Developer.
3. User Interface
